Next Meeting

Tuesday, September 13, 2011

The Lantana, Randolph, MA

MAIN PROGRAM

"Alternative Copper & Copper Alloy Joining Methods"

Presented By:

Mr. Dale L. Powell

Copper Development Association, Inc.

PROGRAM SCHEDULE

Plumbing 101 / Social Hour	5:00 – 6:00
Dinner	6:00 – 7:00
Chapter Business	6:45 – 7:00
Speaker / Technical Session	7:00 – 8:30

MENU

Caesar Salad, Pollo Napolitano & Belgium Chocolate Moose

MEETING RESERVATIONS

\$30.00 Reservation

\$40.00 W/O Reservation

Retired & Currently Unemployed Members are Free

Please reserve by **Friday, September 9th, 2011**

Boston Chapter ASPE Product Show

November 8, 2011 at Lantana, Randolph, MA.

A big thank you to Symmons Industries and John Carter for hosting our August 9th Product Show Meeting. Paul and I are very excited about the progress that has been made and the strong support from all of our affiliates who will be exhibiting and contributing to this 20th Biennial Show! We are pleased to announce that the show is quickly closing out with over 90% of our booths sold and new registrations coming in daily! If you are an affiliate and you intend on exhibiting in this Anniversary Show, we strongly urge you get your booth application to John Pokorny ASAP!!

Our most recent milestone has been hit and we are very excited to announce that on-line registration for the show and seminars is now available to the attendees. A very big thank you to Rich Dean and Chris Curran for tackling such an immense task and providing us with a convenient and easy way for our affiliates to register on-line!! Simply go to <http://www.aspebostonchapter.org> to register today. You will note that there are many opportunities this year to bring home great prizes to commemorate our 20th Biennial Show Anniversary! If you register now and are one of the first 200 to register on-line, you will be automatically entered into a special raffle where two (2) winners will bring home either a 42" HD Flat Screen TV or a *NookColor* reading tablet with WiFi.

We will be introducing a new registration card for all attendees that will assist us with tracking CEU's but will also serve as your golden ticket into the GRAND PRIZE raffles and EXIT RAFFLE – all worth big CASH!! We have inserted a template of what the registration card will look like and all attendees will receive their registration card at the time of check-in. You will also use this card to vote for the best Exhibitor Booth Display!

Thank you in advance to all Attendees who pre-register early, which will help your show committee plan & budget for food and prizes more effectively!! Next meeting to be held on 9/12 @ JH Pokorny!

Nancy Bonnetti- nbonnetti@quanteng.com, Product Show Co-Chair

We continue this month with our ASPE Boston Chapter Affiliate Spotlights on Page 8.

(Continued on page 8)

President's Report

September is upon us and I certainly hope you have enjoyed your summer. I can say that the majority of the board and many volunteers have been hard at work planning the upcoming events for our chapter. I am happy to report that the chapter is moving forward and is excited about hosting the following events:

Plumbing 101: If you are new to the business of plumbing design we are inviting you attend an educational seminar on Understanding Model and Local Codes. The seminar will be held 1 hour prior to the monthly chapter meeting at 5:00PM, in a dedicated room at the Lantana, Randolph, MA. We are also encouraging you to stay for the chapter meeting. There will be two separate seminars, the first focuses on Model Code and the second will on focus the local Massachusetts codes. The dates for these seminars are September 13th and October 11th. This is a pilot program where there will be a one hour lecture on various fundamental plumbing topics. The primary object of the seminar is to provide an additional education opportunity to our younger members. The target audience of the seminar is the person who is starting a career in the plumbing industry or the slightly more experienced person who needs to develop their existing skills. The location and time of these Plumbing 101 lectures will be just before our monthly chapter meetings at Lantana. *We are strongly encouraging department heads to allow their employees to attend these educational sessions.* Space is limited for now. If you or somebody would like to attend please feel free to contact me rdean@vanderweil.com or Rick Neth at nethf@PBworld.com.

21st Annual Golf Tournament: To be held Friday, September 23rd, 2011 at the Wayland Country Club. Our committee chairperson Jeff Gooding has been notifying many of our affiliates and golfers from past seasons. There are still many people that have not heard about this event so please go to our chapter's website to download an application and send it along to Jeff. The chapter's website is www.aspebostonchapter.org

The Biennial Product Show: This will be held on Tuesday November 8th, 2011 at the Lantana in Randolph, MA. This is a milestone for our chapter as it marks our 20th Anniversary Biennial Product show. Please consider attending the show and also our many educational seminars. Please refer to the chapter website for additional information.

This year's product show invitations are being sent electronically. This is accomplished through our Constant Contact broadcast service. The invitation will come in the form of an email from the chapter and will list in detail many notable items about this year's show, including the seminar topics and times. These electronic invitations will have already been sent by the time this newsletter is published. So if you missed the email or did not think you received it please go to our chapter's website and register online. By registering online you are helping us to better coordinate the information and data required. So thank you very much in advance for doing it electronically.

We do have members without internet access or email. In these cases we will be using traditional mail. If you think you are one of these people please use the Product Show insert in this month's newsletter.

In closing I want to thank the many volunteers who have been diligently working on their own time these past few months to organize and execute the events mentioned above. I would like to specifically mention Nancy Bonnetti, Paul Taylor, Jeff Gooding and Rick Neth who have stepped up to the plate and kept things going. I am looking forward to seeing you at any of these events and also the chapter meetings.

Sincerely, Rich Dean, CPD, President, Boston Chapter ASPE

Technical Report

We hope you will join us for our September Meeting. The seminar will focus on the theory and practice necessary for the design and installation of copper piping systems, utilizing non-flame joining methods. It shall include information about standards and applications of copper and copper alloy tube and fittings and the materials and steps involved in making consistent, high quality copper-to-copper joints without the use of heat or open flame. Topics discussed will cover roll grooving, press-fit, and push-connect. In addition, a short discussion related to mechanically formed extruded tees will be presented, commonly referred to as T-Drill.

Our speaker will be Dale L. Powell, a Project Manager and Piping Applications Specialist for Copper Development Association Inc. (CDA). CDA is a not-for-profit trade association that serves as the advanced market development and engineering services arm of the copper and brass industry in the United States. As such, CDA provides engineering assistance, technical development and installation training to the designers, specifiers, installers and consumers of copper and copper alloy tube and fittings.

Since 1995, Mr. Powell has managed the commercial and plumbing tube and fittings markets in the 13 Northeastern states and the District of Columbia for CDA. He has over 20 years experience in the plumbing and HVAC industry as an Estimator, Project Coordinator, Designer and Installer prior to coming to CDA. Dale is a Master Plumber, Certified Instructor of Apprentices and Journeymen with 16 years experience as an Instructor and is professionally affiliated with ICC, NFPA, NACE, AWS, ASPE, ASSE and numerous other professional organizations.

This month as stated in the Presidents Report we will also be offering a Plumbing 101 Course starting at 5:00 PM on September 13th before our monthly meeting. If you are new to the business of plumbing design we are inviting you attend an educational seminar on Understanding Model and Local Codes. We are also encouraging you to stay for the chapter meeting. There will be two separate seminars, the first focuses on Model Code and the second will focus the local Massachusetts codes. The date for second seminar is October 11th. This is a pilot program where there will be a one hour lecture on various fundamental plumbing topics. *We are strongly encouraging department heads to allow their employees to attend these educational sessions.* Space is limited for now. If you or somebody would like to attend please feel free to contact Rich Dean at rdean@vanderweil.com or Rick Neth at nethf@PBworld.com.

21st ANNUAL GOLF OUTING – 2011

The event will once again be held at the **Wayland Country Club in Wayland, MA**, on **Friday, September 23, 2011**

GOLF AND DINNER: \$100.00/PERSON

All proceeds will go towards the Boston ASPE Scholarship Fund.

FORMAT: FLORIDA SCRAMBLE

SIGN-IN: 7:00 AM with coffee, muffins and welcome gifts

SHOTGUN START: 7:30 AM

DINNER AND COCKTAILS: immediately following golf.

*****Prizes and raffle to promptly follow*****

HOLE SPONSORSHIP

To sponsor a hole this year, the cost will be \$100.00. Sponsorship will include a sign with your company name placed on a tee box and recognition in the golf program.

PRIZE DONATIONS

Again this year we are looking for donations for our raffle. If you would like to donate a prize please let one of the committee members know. The golf committee would like to thank all of the sponsors and prize donors in advance.

RSVP

Please RSVP to *Susan Killelea* at David Gooding Inc, 173 Spark Street, Boston, MA 02302 email skillelea@goodingd.com

RSVP DATE Coming up soon!! Please get your reservations in NO Later than September 9, 2011.

Thank you!

ASPE Creates New Career Center

In case you didn't know, ASPE has created a new Career Center on their www.aspe.org website. Take a minute and check it out (just don't get caught doing it on company time!)

Here's a bit I cut and pasted for you:

ASPE's New Career Center Makes Finding the Perfect Engineering Job Easy

When it comes to finding plumbing engineering positions, the mass-market approach of the online job boards may not be the best way to find the job you want. So, ASPE has created the all-new **ASPE Career Center** to give you a better way to find the perfect career fit. The ASPE Career Center is the ideal place to be seen by employers who are specifically looking for plumbing engineers and designers.

Career Advancement Made Easy

The new ASPE Career Center offers members—and the plumbing engineering industry at large—an easy-to-use and highly targeted resource for online employment connections. Whether or not you are actively looking for new employment, it makes sense to post your resume on the ASPE Career Center because you never know what opportunities may be out there looking for you.

The ASPE Career Center offers job seekers:

Free online job search: All job-seeker functions are available at no charge.

Confidential resume posting: Make your resume available to employers, and release your contact information only when you are ready.

Job search agent: Create a password-protected account and receive automatic e-mail notification of new jobs that match your search criteria.

Saved jobs capability: Save up to 100 jobs to a folder in your account so you can apply when you are ready.

How Can the ASPE Career Center Help You?

ASPE has joined Boxwood Technology's Engineer Career Network, an interactive online job board already populated with numerous engineering-related positions at firms located across the country. You can search listings by keyword and then narrow the results by location, discipline, job level, or education level. By creating an account, you can apply for jobs on the spot or save them for further review, and you can post your resume to be noticed by engineering firms searching for their new employees. Best of all, the ASPE Career Center is FREE for job seekers.

The companies you want to work for are searching for the perfect candidates right now, so help them find you at the ASPE Career Center.

Take a look and see what a valuable tool this can be for you.

By John Callahan, CPD, V.P. Memb., Boston Chapter ASPE

DiGiorgio Associates Inc. (DAI) is a Boston based Architectural and Engineering firm with a branch office located in Farmingdale, ME. DAI was established in 1984. In 1988, DAI opened a construction subsidiary, Monitor Builders Inc. (MBI). In 2002, DAI added an engineering division to be able to offer clients a full range of quality design, engineering and construction services. At DAI, the primary focus is on providing quality services to our clients, while providing leadership and growth opportunities to our staff. Although DAI's client base is diverse, we specialize in the planning, architecture, engineering and construction of acute care hospital facilities as well as other medical project types.

We are currently accepting applications for the following position:

Mechanical Engineer – Position requires extensive experience in the design of mechanical systems for acute care hospitals, health care facilities and other related projects. The ideal candidate must have advanced experience in the design of HVAC, plumbing, medical gas and/or fire protection systems for healthcare facilities and the ability to manage all aspects of a project from preliminary design concepts through construction administration. In depth knowledge of FGI Guidelines is required. A working knowledge of Elite load estimating programs, Trane Trace 700 and MasterSpec is desirable. Ideal candidate must possess the ability to perform detailed field surveys of existing mechanical systems. Fifteen years plus experience and professional registration in the New England states is preferred. ASHRAE HFD certification is a plus. Ability to attain Professional registration in New York and Rhode Island as well as travel throughout New England will be required.

Competitive salary and excellent benefits package

Interested candidates should forward their qualifications to:

Human Resources **Phone:** (207) 582-2400
DiGiorgio Associates Inc. **Email:** jobs@dai-boston.com
225 Friend Street
Boston, MA 02114 www.dai-boston.com

The Maine office is located at 484 Maine Avenue in Farmingdale.

Newsletter Advertising

We are accepting advertisements for the 2011-2012 advertising year.

WE OFFER BUSINESS CARD SIZE ADVERTISEMENT

**The exact size is 3½" Wide X 2" High.
The cost for the advertisement is \$650/yr.
Ads will not be pro-rated.**

**We only need new electronic files on new or changing ads.
If this is an exact repeat of last years ad do not send a new file.**

Acceptable file extensions formats are:
"doc" or "pub" or "jpg".

Please do not have artwork scanned, as it compromises the quality of your ad.
There will be an additional \$75.00 set up fee each time there is an ad change during the year.

ADS are to be the size of a business card – but do not need to be just a business card they may or may not include a persons name and can include line information, as long as the size and orientation is, as stated, 3 ½" wide X 2" high.

For an Ad Request Form & Payment information contact Dawn Pokorny at 508-520-0133 or dawnp@jhpokorny.net

Quantum Engineering, Inc.

121 Camelot Drive • Unit #4 • Plymouth, MA 02360 • (P) 508-747-6800 • (F) 508-747-6803

Quantum Engineering Inc. has a rich history that starts well before its conception date of November 2, 1994. Our roots go as far back as 1955 when Mr. Carroll Swaney patented the first vacuum heating pump system while with Nash Engineering Company. He later departed Nash and started the C. R. Swaney Company here in Boston, with Nash Engineering being his first major product line.

Quantum Engineering, Inc. was a direct outgrowth of the C.R. Swaney Company, with the founding President, Mr. Harold E. Wight, also being the last President of C.R. Swaney Company before it closed its doors in 1990. In the years between 1990 and 1994, Harold E. Wight assisted in opening and operating an office for Nash Engineering, Inc. in Needham, MA. Together with Nancy (Dempsey) Bonnetti, they continued the Nash legacy that was started by C.R. Swaney Company in New England.

In 1994, Nash underwent a global re-organization, which divided the company up into market sectors. This opened the door once again for Harold Wight to go back to his former roots as a manufacturer's representative. On November 2, 1994, Harold E. Wight and Nancy (Dempsey) Bonnetti started Quantum Engineering, Inc. representing the four (4) New Nash Market sectors – Nash Power, Nash-Pulp & Paper, Nash – Chemical Processing and Nash – Medical Air Pumps.

Today, Quantum Engineering, Inc. is owned and operated by Nancy Bonnetti and still represents the Nash product line in the healthcare market place through its relationship with BeaconMedaes. Quantum Engineering is the exclusive representative for BeaconMedaes here in New England, specializing in medical gas and vacuum equipment as well as medical gas primary pipeline equipment. Our strong concentration in healthcare led us into the patient care environment where we also represent Hospital Systems, Inc., a manufacturer of custom prefabricated headwall products offering an array of architectural products that deliver medical gas to the patient. Rounding off our product offering in healthcare, Quantum recently forged a relationship with AMVEX, a premier supplier of secondary equipment including suction regulators, flow meters, adapters and medical gas hose assemblies.

Quantum also holds a presence in the industrial air and vacuum markets through our representation of SIHI Pumps, Inc. SIHI Pumps is a leader in engineered vacuum and compressed air systems for the pharmaceutical, chemical, petrochemical, power and general industrial markets. SIHI hosts a complete line of specialty pump products including a High Vacuum Dry Pump for the chemical, pharmaceutical and research marketplace.

Nancy Bonnetti has been in the industry for twenty (20) + years working with specifying engineers, facility engineers and mechanical contractors providing engineered solutions for medical and laboratory gas, vacuum and compressed air systems in the New England territory. I guess you could say Nancy made the **QUANTUM** leap into medical gas plumbing followed by a long relationship and active involvement in the Boston ASPE Chapter. Nancy Bonnetti served as the Chapter Secretary for two (2) terms and Product Show Co-Chair for the 2011 Anniversary Product Show. Quantum Engineering, Inc. has been an active member of ASPE since its inception in 1994, but Nancy's association with ASPE began long before then while employed by C. R. Swaney Company back in 1989, when she attended her first monthly dinner meeting.
